LOGIN

Next, you will be on the Final Inspection search page. There will be multiple fields you can search by.

Barcode ID – The barcode number found on the top of the lab ticket. This can either be scanned or typed in.

Patient ID – The ID specific for the patient. This can either be a school or government ID or the number found on a pre-printed label.

Clinic Name – The name of the clinic this patient is a part of.

Last Name – The last name of the patient.

First Name – The first name of the patient.

Status – Drop down listing all stations from the clinic.

Once you have filled out the search criteria you can click on the blue button at the bottom labelled “Search.”

UPDATE

BACK

The next section is labelled “RX Pair (1)” and will have the following fields. If the patient is prescribed to have a second pair it will have the same fields as the first pair.

Rx Type – Type in what type of Rx the patient was prescribed.

Wear Instructions – Instructions to the patient for wearing glasses. Reading only, wear as prescribed, wear for 6 months, etc.

Sphere – Rx sphere for the pair. (OD on top/OS on bottom)

Cylinder – Rx cylinder for the pair. (OD on top/OS on bottom)

Axis – Rx axis for the pair. (OD on top/OS on bottom)

Psm U/D – Rx prism up/down for the pair. (OD on top/OS on bottom)

Psm I/O – Rx prism in/out for the pair. (OD on top/OS on bottom)

Far PD – Rx far PD for the pair. (OD on top/OS on bottom)

Near PD – Rx near PD for the pair. (OD on top/OS on bottom)

Seg – Rx seg for the pair. (OD on top/OS on bottom)

PWR 90 – Rx power in the 90 degree for the pair. (OD on top/OS on bottom)

PWR 180 – Rx power in the 180 degree for the pair. (OD on top/OS on bottom)

Frame SKU – Sku of the frame for the pair.

FRAME DESC – Description of the frame.

A – A measurement for the frame.

B – B measurement for the frame.

ED – ED measurement for the frame.

DBL – DBL measurement for the frame.

There will be a break in the page and then it will show fields for the processing information.

Status – Shows current job status.

Lens Type – Choose the lens type for the pair.

Lab – Select the lab the job is being processed at.

Shuttle – Select if the job is a shuttle job or not. **IF THE JOB IS SHUTTLED, ENSURE YOU HAVE THE FRAME SKU AND MEASUREMENTS IN THE PREVIOUS SECTION.**

RX Final Inspector – The name of the final inspector for this pair.

There is another break in the page and then it will have the following fields.

OD Lens SKU – Sku for the OD lens. **THIS SHOULD BE SCANNED IN.**

OS Lens SKU – Sku for the OS lens. **THIS SHOULD BE SCANNED IN.**

Breakage SKU 1 – Enter any damaged sku here.

Breakage SKU 2 – Enter any damaged sku here.

There will be two yellow buttons for “COMPLETE RX PAIR #1” and “SHUTTLE RX PAIR #1.” Press the button for which one you need to do and it will take you back to the search patient screen. You can now move on to the next patient!
